Scientific supervisor of the master's dissertation: Bogdanova Elina Nikolaevna, Doctor of Philosophy, Professor.

Customer organisation: Graduate School of Management of the Federal State Budget Educational Institution of Higher Education «Pyatigorsk State University».

Topicality of the research: In the modern world, the interaction of youth public organizations with municipal educational organizations is one of the most urgent problems in the field of organization of work with young people. In management activities in recent years, this topic is becoming increasingly important.

It is young people who ensure social mobility and are the basis of innovation. Today's young people have become more purposeful, it has become easier to understand the ways of solving problems. Now, many educational forums, festivals, major events have been created to improve the skills and competencies in the comprehensive development of the young generation. Grant competitions for youth projects, such as Presidential, Federal, regional and other ones, have become popular in the Russian Federation. Young people are fully supported, at local levels young people can receive Awards of the head of the City or the Governor of the region, students receive incentive Governor's or Presidential scholarships for special services in different areas.

Youth public organizations (associations) are created to activate the social life of young people and personal development of the young generation.

To attract young people who are trained in municipal educational organizations in the public life of the city, region and country, it is necessary to improve the interaction of youth public organizations with municipal educational organizations.

Objective: development of the project on improvement of interaction of youth public organizations with municipal educational organizations of Pyatigorsk, as a tool for the implementation of the state youth policy.

Tasks: clarify the essence and content of the concept of "youth" and "youth public organization"; to consider the types and forms of youth public organizations, the direction of their activities in the educational sphere; explore the content and forms of interaction of youth NGOs with municipal educational organizations; To analyze the activities of youth public organizations in matters of interaction with municipal educational organizations in the Stavropol Territory; consideration of the process of interaction of youth public organizations with municipal educational organizations of the city of Pyatigorsk; project of the project on improving the interaction of youth public organizations with municipal educational organizations of the city of Pyatigorsk.

Theoretical and practical significance of the research: The theoretical basis of the research was the work of domestic and foreign authors in the field of the sociology of youth, as well as the sociology of management and management. Methodological basis of research, scientific research, social sciences, social sciences, social sciences, social sciences, social analysis, social analysis and social diagnostics.

Results of the research: In may 2018, 350 young people aged 14-18 were interviewed. 10 questions were presented in the questionnaire. According to the results of the survey, it was revealed that the majority of young people in municipal educational organizations do not know about youth public organizations,

but the majority recognize their importance in the city. On this occasion, it was decided to create a project Pyatigorsk city youth forum "High level".

Recommendations: The forum will help to establish communication between youth public organizations and municipal educational organizations of the city of Pyatigorsk, to promote youth public organizations among the younger generation, to strengthen the multifaceted ties between educational organizations of the city, the Association of a wide range of young people on the basis of their common interests, and, of course, the development of creative, sports and military-Patriotic activity of young people, through the dedication of students, teachers-organizers and psychologists of municipal educational organizations in the sphere of youth public organizations (associations), exchange of contacts between them and their involvement in their work.

Thus, communication and work between youth public organizations and municipal educational organizations of the city of Pyatigorsk will be adjusted and improved.
