(Bachelor's degree)

Subject matter: LINGUISTILISTIC FEATURES OF SPORTS DISCOURSE ON THE BASE OF SPANISH AND RUSSIAN LANGUAGES MATERIAL

Author: Magomedova Suvar Khizrievna

Supervisor of studies: Candidate of Philological Sciences, associate professor A.S. Potapenko

Research initiator: Federal State Budget Educational Institution of Higher Professional Education «Pyatigorsk State University»

Information about customer organization:

Topical importance: In linguistic literature there is no generally accepted understanding of the term “sports discourse” and, moreover, there are practically no clear definitions of this concept. Also, the stylistic aspects of sports discourse still hasn't been studied well.

Goals: The study of the stylistic features of sports discourse of Russian and Spanish languages.

Tasks: -consider the characteristics of sports discourse and its features;
- to study the genres of sports discourse;
- analyze the specifics of the Russian sports discourse;
- to analyze the characteristics of material supply in the Spanish national sports newspapers.

Theoretical value and practical applicability: To summarize the material on the problem of sports discourse and others factors that are related to this problem and also use of the results in the practice of teaching Spanish stylistics, when translating news and writing sports discourse.

Implementation advice: In this final qualifying work, we only made a modest attempt to study the stylistic features of sports discourse of Russian and Spanish languages., as well as the development of a glossary. A further prospect of research is the study of the linguistic and stylistic features of sports reporting.
