

Summary

Subject matter: Improvement of the practice of volunteering as a tool in the system of realization of the State youth policy on the local level.

Author: Antonova Viktoria Gennadievna.

Supervisor of studies: D.S. Chekmenyov, candidate of historical sciences, associate professor, chair of innovatics, management and law.

Customer organization: Municipal fiscal organization “Youth center”.

Topicality of the research: State youth policy is not only the substantial element of the state policy but the integral characteristic element of its competitive mechanism, but also the most flexible, effective and transparent by virtual of its size from of the interaction with the country’s youth. However in the course a the realization of the SYP, the state does not use in its work the volunteering mechanism which, meanwhile, is gaining popularity across the world.

Objective of the research is: is the revelation of the problem typical of the young people of stanitsa Kurskaya and determination of the ways of their solution by using volunteering mechanism.

Tasks:

- to examine the essence, principles, main direction of the State youth policy;
- to reveal the essence of volunteering and consider the forms of its realization;
- to determine the mechanism of the involvement of the local administration in the realization of the state youth policy;
- to familiarize ourselves with the organizational and administrative description of the system of the realization of the State youth policy on the level of the local administration in stanitsa Kurskaya;
- to analyze the practice of using volunteering on the example of stanitsa Kurskaya of Kursk municipal district of Stavropol Krai;
- to outline the main directions of the improvement of the practice of using volunteering in the system of the realization of the state youth policy on the municipal level.

Theoretical significance of the research: is the determination of the essence of the state policy, study of its principles and streamlining of its main directions. Concretization of the notion of volunteering elaboration of the author's definition of this phenomenon, and also consideration of the forms of the realization of volunteering. Besides we have investigated the mechanisms of the involvement of the local administration in the realization of the state youth policy.

Practical significance of the research: is the detailed consideration of the SYP on the municipal level on the example of stanitsa Kurskaya, the conducted analysis of the practice of using volunteering in the course of the realization of the SYP in Stanitsa Kurskaya and the examination of the main directions of the improvement of the practice of using volunteering in the system of the realization of the state youth policy on the local level. Besides we have proposed practical recommendations on the organization of volunteering groups.

Results of the research: showed that despite special attention of the state to the sphere of youth policy its realization on the regional and municipal levels remains ineffective. In stanitsa Kurskaya the problems with housing, employment, entertainment, education, health, low social activity of the youth remained unsolved

Recommendations: 1To set up within the framework of the "Youth Center" an informal structure from the youth sphere promoting the detection of the problems of the young people in Kurskaya and seek ways of their solution.
