**Author:** Moiseeva Taisiia Vitalievna

**Supervisor of studies:** Kornienko Alla Alexeevna, professor, Dr. of philology, head of the Chair of French philology and intercultural communication

**Information about customer organization:** Ministry of Education and Science of the Russian Federation, State Educational Government-Financed Institution of Higher Education «Pyatigorsk State University», Chair of French philology and intercultural communication, Institute of Romance and Germanic languages, information and humanitarian technologies

**Topicality of the research:** is determined by the necessity of understanding the patterns of formation of the language world picture in the temporal aspect of human existence, and also by the insufficient degree of scientific elaboration of the subject. Youth cult is a very important phenomenon that finds its expression in many cultures nowadays. The study of the lexical means of expression of the YOUTH concept enables to specify a conceptual world picture, common to all native French speakers, as well as to determine national-specific features of the French culture.

**The objective of the research:** works of different linguists, websites, as well as a number of modern lexicographical sources of French language. The study is carried out on the materials of French language using the data of Russian and English languages at the merge of several disciplines: cultural linguistics, cognitive linguistics, sociolinguistics, lexicography, developmental psychology and gerontology.

**Tasks of research:**

- to present the current views and approaches to the subject of rejuvenation of the human body;
- to describe the current approaches of the composition and structure of rejuvenation conceptsphere;
- to identify lexical units of modern French language, thematically related to the practices of rejuvenation;

- to describe the linguistic and socio-cultural components of the underlying mechanism of conceptualization of the phenomenon.

**Theoretical and practical significance:** is determined by the ability of the application of materials during the preparation of scientific researchers and practical courses.

**Results of the research:** the conceptsphere of youth cult in Modern French language is identified and described.

**Recommendations:** the results can be developed or recommended to the next researches related with this subject.
