

Abstract
Graduation Level of Proficiency Paper
(Bachelor's degree / Specialist's degree / Master's degree)

Subject matter: The reflection of the history of Spain in Spanish idioms: the didactic aspect.

Author: Nikulina Olga Dmitrievna.

Supervisor of studies: Candidate of Philological Sciences, Associate Professor, Head Chair of Spanish Studies and Intercultural Communication, Kobyakova Irina Aleksandrovna.

Information about customer organization: Institute of Roman and German Languages, Informational, and Humanitarian Technologies, Federal State Budgetary Educational Establishment of Higher Professional Education "Pyatigorsk State University".

Topical Importance: the relevance of the study is determined by the importance of studying the linguistic and historical connection concluded in the Spanish idioms, as it contributes to the enrichment of a person speech and expanding his/her cultural and historical knowledge about the country. The use of such idiomatic units also allows him/her to make speech more emotional and expressive. Moreover, it helps him/her learn to express thoughts concisely.

Goals: the study of Spanish idioms and the identification of those phraseological units that are based on the historical events of the period of the country's existence, as well as the development of methods for teaching them.

Tasks:

1. to study the meaning of the phrase "phraseology" and "phraseological unit";
2. to consider the existing types of classifications of phraseological units;
3. to study the methodology of teaching of foreign phraseological units;
4. to select and study language material reflecting the historical events of Spain;
5. to classify the studied corpus of phraseological units;
6. to identify phraseological units with equivalents in the Russian language, analyze and compare them;

7. to draw up a detailed outline of the lesson aimed at teaching phraseological units reflecting the history of Spain;
8. to describe the results of the study.

Theoretical value and practical applicability:

The theoretical value of the research results lies in the fact that it substantiates the theoretical aspect of the work and proves the existence of a strong link between the history of the country and its language.

The practical applicability of the work lies in the fact that its results can later be used in practice in the process of teaching Spanish.

Implementation advice:

Teachers can use the result of the study during Spanish or history lessons in schools or universities. Moreover, thanks to this innovative approach to learning, students will improve their language level (listening) faster, expand their cultural and historical knowledge about the country and, furthermore, it will motivate them to study.
