Author of VKR: Kovtunova A. A.

Research supervisor of VKR candidate of historical sciences, teacher of department of tourism and hotel service of Sribnaya T.A.

Data on the organization: FGBOU IN "PGU"

Relevance of a subject of a research. The chosen subject is rather urgent now. Studying tendencies of the tourist market, it is possible to note that "mushroom" tourism in recent years strongly added in popularity. This branch of agro-tourism and gastro-tourism by right is considered perspective and interesting. Fans to eat mushrooms it is a lot of, in many camps of steel it is held the events devoted to mushrooms and actions. Such, for example as "The mushroom mountain" in Asturias, or a competition "mushroom tapas snack. Finland invites fans of mushrooms to "a mushroom landing". And similar examples are available in many countries of the European continent.

Mushroom tourism in Russia, according to experts, is one of perspective niches where so far the competition isn't observed, and potential interest in mushroom trade at consumers rather big.

Research object: mushroom tourism as urgent direction of a modern tour operating.

Object of research: the organization and development of tourism on the basis of resources of mushroom grounds of Stavropol Krai.

Work purpose: studying of features of the organization of mushroom tourism and development on the basis of resources of mushroom grounds of Stavropol Krai of the Mushroom Day Off tour.
